Kai the mermaid builds a lavish sandcastle under the sea. The castle attracts all kinds of sea life, from clams and jellyfish to fearsome sharks and playful dolphins. One-by-one, each visitor causes a troublemaking chain of events that leads to disaster for Kai! What will happen to Kai and the castle that Kai built? The Castle That Kai Built is a cumulative tale in which the story repeats and builds as more characters are introduced. Written and illustrated by the award winning Tammy Yee, children will delight in the colorful pictures and silly story that repeats and repeats and makes reading along fun!
